Experience

FlashCards

- A full stack web app that I fully designed and coded.
- React, Redux, Tailwind CSS, Node.js, Express, MongoDB
- Demo: yap-flashcards.herokuapp.com, Repo: github.com/yap8/flashcards

Messenger

- A full stack web app developed by a team. I worked on both frontend and backend, led the project and wrote the documentation. Currently working on rewriting our API with Python and implementing new features.
- React, Redux, Tailwind CSS, PHP, MySQL
- Demo: h91115tq.beget.tech, Repo: github.com/yap8/messenger
